

Irish Legal News 2023 Media Pack

Irish Legal News is the daily online news service for lawyers across the island of Ireland.

Established in 2015, *ILN* is read and trusted by thousands of solicitors, barristers, judges, academics, students and other legal professionals spanning all areas of civil and criminal law, in private practice and in-house.

Our free email newsletter is delivered straight to the inboxes of over 10,600 subscribers every lunchtime from Monday to Friday, while our high-SEO website regularly attracts up to 100,000 unique visitors in a month.

We have more than 21,600 LinkedIn followers, over 8,800 Twitter followers and a brand-new Instagram account launched this summer which is already proving popular with students and early-career lawyers in particular.

Small, medium and large law firms, universities and colleges, representative and regulatory bodies and government agencies are among those already advertising their services, job vacancies and events in *Irish Legal News*.
